100% RECYCLABLE BANNER PRINTING.

Printed on a 355-micron, 100% polyester, recyclable grey back media, via a water-based UV printing process for a professional and long-lasting banner.

HEAVY DUTY HARDWARE.

Durable aluminium chassis, with reinforced roll up banner cassette mechanism keeping your banner under tension and suitable for outdoor display use.

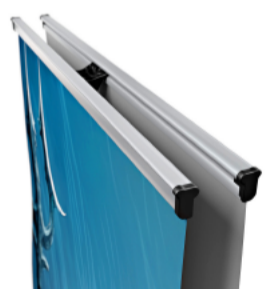

DOUBLE SIDED GRAPHICS.

You can utilise the same design or have a different design on either side, which can attract attention from multiple directions.

UV & WATER RESISTANT.

The POSEIDON® Outdoor Banner is specially designed for outdoor advertising and is built to withstand inclement weather.

WATER FILLABLE BASE.

Printed on a 100% polyester media that is an opaque, stoplight material (light cannot penetrate from behind) and is anti-curl and stay flat.

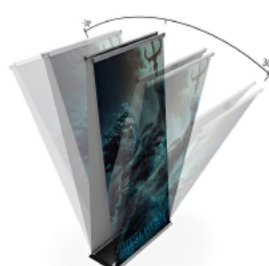

SPRING LOADED POLE.

POSEIDON® Banner has a robust telescopic spring pole that allows the banner to bend and sway with the wind making it more windproof.

WIND RESISTANT BANNER.

The waterbase and spring loaded pole allows the POSEIDON® Outdoor Banner to be wind resistant up to Beaufort scale 5 (18 - 24 mph/ 29 - 38 kmh) when filled to capacity.

CARRY BAG INCLUDED.

For storage and transportation between events POSEIDON® Outdoor Banners are delivered in a padded carry bag and weigh less than 8kg.
