100% RECYCLABLE ROLLER BANNER.

Printed on a 355-micron, 100% polyester, recyclable grey back pop-up media, via a UV printing process for a professional, durable and long-lasting banner.

TOOL FREE ASSEMBLY.

Delivered in just two parts - banner cassette and pole. Just pull up your banner graphic from the cassette and you are ready to go.

ANTI-CURL STOPLIGHT MEDIA.

Printed on a 100% polyester media that is an opaque, stoplight material (light cannot penetrate from behind) and is anti-curl and stay flat.

PREMIUM HARDWARE.

STINGRAY® Banners are manufactured with reinforced aluminium, an upgraded graphic tension system and housed on a forged composite base.

LIGHTWEIGHT & PORTABLE.

Designed for ease of transportation and weighs just 4kg, including the pull up banner graphic and carry bag. Lightweight and compact.

AVAILABLE IN TWO WIDTHS.

Available in 800mm or 1000mm wide, at a standing height of just over 2 meters.

INSPIRED BY NATURE.

The organic base design is inspired by the shape of a stingray's tail. The STINGRAY® Banner has unmatched stability and a professional aesthetic.

FRONT LOADING GRAPHIC.

The printed banner pulls out and retracts from just 30mm off the floor, giving your artwork maximum impact and exposure.
